My Child in One Million Words... OR LESS

Don't know where to start?

What would you like us to know about him/her?
Whom does his/her family consist of?
What does your child love?
What is a special or notable characteristic about your child?
What has been a struggle in your child's life?
What are his/her goals and dreams?
What are your hopes for him/her?

We know that you know him/her best, so we value your comments. Please do not feel like you need to spend hours writing us about your child. We do not want to impose on your time or other commitments. We would just like to hear something from each of you as we feel like your perspective is invaluable and we will learn a lot from your input.
